*"Brokers of good quality new and second hand narrow boats."*

REF: 10550

Boat Name: Eclipse

Eclipse is an all-steel narrow boat built by Roger Fuller of Five Towns Boat Building in 1992 as a superb copy of a Little Woolwich motorboat built for the Grand Union Canal Carrying Company by Harland and Wolff. She is powered by a twin cylinder water-cooled Lister engine with Blackstone gearbox. She benefits from a full under-cloth steel cabin. The layout from the rear comprises of Boatman's cabin decorated in traditional style adorned with scumbling, roses and castles and is heated by a solid fuel range. Following this is the engine room which houses the engine, fuel tanks and all the electrical systems. Forward of this is the galley with Vanette Gas hob, grill and oven, stainless steel sink/ drainer, microwave and ample worktop and storage space. Next comes the open plan saloon with settee, television and Old Dutch diesel stove. Following this is the shower room with full height shower, Thetford C200 cassette and wash basin. At the front of the cabin are two bench seats that convert to a double bed and doors lead out into the spacious well deck area. Eclipse has a current Boat Safety Certificate until 2026. Viewings of this boat are by appointment only.
